ayandeb968@gmail.com
Bengaluru, Karnataka, India

Career Objective

Results-driven Systems Engineer with strong expertise in Linux administration, automation, and production support. Experienced in building scalable infrastructure, performing deep root cause analysis, and automating operations using Python/Shell. Currently expanding into AIOps and AI-driven monitoring, with a focus on intelligent automation and system reliability.

EMPLOYMENT HISTORY

Technical Services Engineer Expert · Fujitsu Consulting India Private Limited

July 2023 - Present

- Managed large-scale Linux-based production environments, ensuring high availability and performance through proactive monitoring and issue resolution.
- Designed and implemented automation solutions using Shell/Python scripts to reduce manual intervention and improve operational efficiency.
- Performed deep root cause analysis (RCA) for critical incidents, leveraging logs, system metrics, and debugging techniques to identify permanent fixes.
- Worked closely with development and support teams across the Software Development Life Cycle (SDLC) to ensure smooth deployment and system stability.
- Built and enhanced system monitoring strategies, enabling early detection of anomalies and performance bottlenecks (AIOps-aligned practice).
- Managed infrastructure configurations and system tuning, ensuring compliance with security and performance standards.
- Contributed to incident management and problem determination, improving system reliability under production pressure.
- Documented troubleshooting workflows and operational runbooks to enable faster issue resolution and knowledge sharing.

Senior Associate Consultant · Infosys Ltd.

March 2021 - June 2023

- Administered and maintained large-scale distributed systems supporting millions of users, ensuring reliability and uptime.
- Automated infrastructure and application deployment using Ansible, improving consistency and reducing manual errors.
- Managed LDAP-based authentication systems for high-volume environments, ensuring secure and scalable access control.
- Provisioned infrastructure across on-prem (VMware) and cloud environments (AWS), aligning with cloud-native architecture principles.
- Led OS-level patching, upgrades, and performance tuning, ensuring compliance with security and operational standards.
- Worked on clustered environments (Pacemaker, MySQL) to ensure high availability and fault tolerance.
- Collaborated with cross-functional teams to troubleshoot production issues, demonstrating strong analytical and debugging skills.
- Supported system lifecycle management, including upgrades, configuration management, and environment optimization.

Software Engineer · Tech Mahindra Ltd.

April 2018 - March 2021

- Managed and supported Data Warehouse and ETL systems (Informatica), ensuring reliable data processing pipelines.
- Administered and optimized OBIEE analytics systems, enabling business insights through reporting solutions.
- Automated repetitive operational workflows using Bash scripting, improving efficiency and reducing manual errors.
- Configured and maintained job scheduling systems (IBM Tivoli Work Scheduler) for ETL and data workflows.
- Implemented secure data transfers using SFTP and IBM Connect Direct, ensuring reliable system integrations.
- Participated in incident resolution and debugging of ETL/data pipeline failures, ensuring minimal downtime.
- Gained strong exposure to system integration, data flow architecture, and backend operations.

EDUCATIONAL QUALIFICATIONS

Master of Technology (M. Tech)

Birla Institute of Technology and Science, Pilani (Expected Completion: October 2026)

Artificial Intelligence & Machine Learning.

Relevant Coursework:

- Deep Learning (CNN, RNN, Optimization)
- Natural Language Processing (NLP, Embeddings, Language Models)
- Reinforcement Learning
- AI/ML for Cyber Security

Bachelor of Technology (B. Tech)

University of Engineering and Management, Jaipur (2013-2017)

Electronics and Communication Engineering (Overall CGPA-7.92, 81.76%)

Class XII - ISC 2013

St. Joseph's School, Bhaktinagar
(Aggregate Percentage - **87.20%**)

Class X - ICSE 2011

St. Joseph's School, Bhaktinagar
(Aggregate Percentage - **86.71%**)

CERTIFICATIONS

- AWS Certified Solutions Architect - Associate
- Oracle Cloud Infrastructure Architect - Associate
- Red Hat Certified System Administrator

PERSONAL INFORMATION

Name: Ayan Deb.
Gender: Male.
Nationality: Indian
Marital Status: Single

DECLARATION

I declare that the details mentioned here are true to the best of my knowledge and belief.
